

PROJECT PROFILE

JACKSONVILLE, IL **PROJECT AREA**

PRODUCT

SolarWorld (US) made
Solar Modules

SERVICES

Design
Engineering
Procurement

YEARLY SAVINGS

\$75,000/year

600 Kw array direct utility interconnection before meter.

This customer was looking to reduce overall energy purchase costs from Ameren. They had a goal of providing environmental benefits to their members by reducing their overall carbon footprints.

This project was completed for a cooperative. Savings are also passed through to their members.
