

INDUSTRIAL SOLUTIONS

Supporting manufacturing and OEMs with the knowledge and expertise to keep your facility running smoothly, our Industrial Solutions include MRO, OEM, Industrial Services, and Engineered Manufacturing Solutions.

Asset Management

Utilizing innovative technology combined with our years of experience in logistics and inventory management enable us to help lower total cost of ownership and mitigate supply chain risk while increasing stakeholder satisfaction and enhanced operational efficiency throughout your facility.

- **MRO/VMI**
- **Critical Assets**
- **Building Envelope**

Engineered Solutions

From our new 23K SQFT manufacturing facility, our team of engineers and technicians efficiently and expeditiously provide solutions for the following:

- **Control Panel Building**
- **Wiring Harnesses**
- **Switchboard/MCC Assembly**
- **Cable Assemblies**
- **Enclosure Modifications**
- **Sub Assemblies**

Safety Solutions

Protecting people first and assets next are critical in an industrial environment. We offer a broad selection of the following:

- **Safety Training**
- **Safety Audits/Assessments**
- **Safety Product Solutions**

Industrial ICS/OT

To meet the unique challenges of planning, implementing, and managing OT (Operational Technologies) within the industrial environment, our solutions include:

- **Network Assessment**
- **Security & Process Monitoring**
- **Power Quality**
- **Structured Cabling**
- **Data Center Design**
- **Overall Equipment Effectiveness**

Sustainability Solutions

Let us help shape a more sustainable future as a trusted advisor. Our innovative solutions positively impact:

- **Optimization**
- **Energy Efficiency**
- **Carbon Reduction**
- **Biodiversity**
- **Profitability**
- **Employees & Stakeholders**
